another reason is that none of those followers will turn into customers since many of these accounts are fake they can't actually provide any value as potential leads or customers sure you might appear more legit with 20k followers as opposed to 5k and that legitimacy might turn into a few extra real followers who may have not followed you otherwise but for the most part people follow accounts because they like the content or the product not because they have tons of followers you'll see much more success with fewer numbers of followers who are really engaged with your product and content rather than a ton of followers who don't comment like share or buy digi follower has allowed you to participate in the website's sales how you should first create an account on the website then you will be given a unique link this link can be shared in a variety of places hear a notification ring pull your mobile out from your pocket open instagram and see a real and active user has followed you there would be nothing more heart stirring than that also to find out he or she slips away somehow takes longer than that and so does the confusion and depression that remains to you take it easy since it's not your fault you just got into an invisible trap where those free instagram followers tools break the promise you should be aware that even though these followers are referred to as free they are not you

effectively advertise the website and its services by sharing the referral link and posting a video or a photo on your story therefore the followers are not free
